PAGE: 1 of 2
DATE: 8-2-01
REVISION: 00

SUBJECT: Extrusions to vend a 20 oz. Bolt Bottle.

MODELS: All G-III Venders

KIT NUMBER	KIT DESCRIPTION
231040	79" Bolt Bottle Extrusion Kit (One kit converts either front or rear column)
232030	72" Bolt Bottle Extrusion Kit (One kit converts either front or rear column)
231050	79" Canadian (600 ml) Bolt Bottle Extrusion Kit (One kit converts rear column) refer to page 2
232050	72" Canadian (600 ml) Bolt Bottle Extrusion Kit (One kit converts rear column) refer to page 2

REASON FOR FIX: To reliably vend the 20 oz. Bolt Bottle Package from the G-III vender.

INSTRUCTIONS:

1. Remove power from vender by unplugging vender's main power cord from the AC voltage power source (wall outlet).
2. Remove product from the column(s) being converted.
3. Place the Bolt Extrusion against the left side of the column wall with the channel portion of the Bolt Extrusion towards the column divider as shown in figure 1.
4. Align the bottom of the Bolt Extrusion with the top of the baffle hooks. See figure 1
5. Press the Bolt Extrusion's channel onto the divider wall. Ensure that the Bolt Extrusion is seated flat against the column wall along the entire length of the Bolt Extrusion.
6. Install the other Bolt Extrusion on the right side of the column wall. The Installation process is the same as the left side. Except the Bolt Extrusion is seated on top of the divider insert. See figure 2.
7. Set the product retainers and backspacer: **(Front 6, Rear 2)**

NOTES:

1. Load Bottles with "caps out"
2. 79" Bolt Extrusion - 815294
72" Bolt Extrusion - 815295
3. Domestic Bottle Capacity with Kit:
22 per Front Column, 79"
24 per Rear Column, 79"
19 per Front Column, 72"
21 per Rear Column, 72"

SUBJECT: Extrusions to vend a 20 oz. Bolt Bottle.

MODELS: All G-III Venders

INSTRUCTIONS: 600 ml Canadian Bolt Bottles (Rear Column)

1. Remove product from the column(s) being converted.
2. Place the Bolt Extrusion against the right side of the rear column wall with the channel portion of the Bolt Extrusion towards the column divider. The top of the Bolt Extrusion should be positioned approximately 3.75 inches from the top of the column divider (see Fig. 3).
3. Press the Bolt Extrusion's channel onto the divider wall. Ensure that the Bolt Extrusion is seated flat against the column wall along the entire length of the Bolt Extrusion.
4. Set the product retainers and backspacer according to the vender's inner door loading decal.
