SUBJECT: Installation of the RVV NG Validator Security Door	# of People Required 
MODELS: RVV NG	

Kit Number	Kit Description
356131	RVV NG Validator Security Door Kit

The following areas of this vender contain voltage which can cause serious injury or even death: the main power cord, supplying 110 VAC to the evaporator, EMI filter, and refrigeration system; the power line from the EMI filter to the ballast and transformer; and the ballast, which can produce upwards of 600 volts. Remove power from vender before working in any of these areas.

TOOLS REQUIRED: Socket wrench with 3/8" and 7/16" sockets
ESTIMATED INSTALLATION TIME: 10 minutes

INSTALLATION OF KIT:

1. Remove power to the vender by unplugging the vender's power cord from the AC voltage source (wall outlet).
2. Using a 3/8" socket, remove the nut which secures the door switch bracket in the location shown in Figure 1.
3. Using a 7/16" socket, remove the nut on the carriage bolt illustrated in Figure 1. (Remove only the nut, not the carriage bolt.)
4. Using a 3/8" socket, mount the security door latch strike, securing it with the two screws included in the kit. Refer to Figure 2 for proper location and installation.
5. Install the washer from the kit onto the carriage bolt from which the nut was removed in step 3. Refer to Figure 3.
6. Mount the security door in place. Secure it with the nuts that were removed in steps 2 and 3. Refer to Figure 3.
7. Restore power to the vender by plugging the vender's power cord into the AC voltage source (wall outlet).

In an effort to provide our customers with the latest information on our equipment, Royal Vendors sends service bulletins to customers using the original ship-to address or e-mail addresses, if supplied by our customers. We also post all service bulletins on our website at www.royalvendors.com. If for any reason a vender is moved to another location or is sold to another customer other than to whom Royal Vendors originally sent the machine, it is the responsibility of the original purchaser of the vender to notify the appropriate personnel of the service bulletin.
