

## **SETTING PRICE – HVV**

1. Push the mode button on the control board.
2. Push the #1 selection until SET PRICES, then hit the #3 selection button to enter.
3. You will see SELECTION 1. Price is set by selection.
4. Push the #1 selection to scroll through individual selections or to go to ALL SELECTIONS.
5. Using ALL SELECTIONS, the prices on all selections can be changed at once.
6. When entering into a single selection or ALL SELECTIONS, you can raise the price by pushing the #1 selection button, or lower it by pushing the #2 selection. Press the #3 selection to save the price.
7. Push the #4 selection to exit out.
