

SETTING DEPTH – HVV

1. Push the mode button on the control board.
2. Push #1 until SET SELECTION DEPTH, then enter in with the #3 selection.
3. You will see SELECTION 1, followed by the current depth setting for that selection.
4. Pushing #1, you can scroll through selections 1-12 or ALL SELECTIONS.
5. Push #3 to enter into the individual selection number or ALL SELECTIONS.
6. **MERLIN HVV:** Set “1” for bottles or “2” for cans.
TDV HVV: Set “2” for bottles or “3” for cans.
7. Press the #3 selection to save setting.
8. When you are finished, exit out with the #4 selection button.
