REAR COLUMNS: Dasani / Diet Coke Slim Can Kit Gill Rear (79": 231092; 72": 232045).

INSTALLATION INSTRUCTIONS

Note: Before working on vender, always remove power by unplugging the vender's main power cord from the AC voltage source (outlet).

1. Remove all product from the columns that are to be converted.
2. Remove the existing spacers and product stops from all columns that are to be converted by pulling the product stop rods and removing the small parts.
3. FRONT COLUMNS:
 - a. Reinstall spacers and product stops in the following order, starting from the front of the column (see Figure 1): 0.50" spacer (A), long product stop (B), 1.25" spacer (C), product stop from kit (D), 1.25" spacer (C).
 - b. Remove the left and right product retainers from the columns to be converted.
 - c. Install the shim by placing it all the way against the center divider channel. (See Figure 2.)
 - d. Install the left product retainer in position 8, counting from the front. Do not reinstall the right product retainer.
- REAR COLUMNS:
 - a. Reinstall the spacers and product stops in the following order, starting from the front of the column (see Figure 1): 1.25" spacer (C), product stop from kit (D), 1.25" spacer (C), long product stop (B).
 - b. Install the shims by placing them all the way against the center divider channel. Install the longer shim first, then install the shorter shim above the longer one. (See Figure 2.)
 - c. Install the backspacer assembly in position 7, counting from the rear.
4. Attach one divider extrusion to the left-side center channel. (See Figure 3.)
5. Load bottles with caps to the front in front columns and caps to the rear in rear columns.
